

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A method of purchasing goods or services, comprising:

creating credit in a wireless service account server in response to an entity having actively interacted with a given web site of a seller of goods or services that has secured wireless airtime units from ~~[[a]]~~ said wireless service provider;

~~providing attraction to said given web site by crediting into a database~~ said wireless airtime units ~~from said wireless service provider~~ to said wireless service account based on an ~~interaction of~~ said entity browsing with a web site of ~~[[a]]~~ said seller of goods or services; and

directing payment for goods or services from said wireless service provider with said wireless airtime units credited to said wireless service account.

2. (original) The method of purchasing goods or services according to claim 1, wherein:

said directing payment is for payment of goods.

3. (canceled)

4. (canceled)

5. (original) The method of purchasing goods or services according to claim 1, wherein:

said directing payment is for payment of a service.

6. (original) The method of purchasing goods or services according to claim 1, wherein:

said directing payment transfers wireless airtime units from a buyer's account to a seller's account.

7. (original) The method of purchasing goods or services according to claim 6, wherein:

said wireless airtime units can be used in a metered wireless communications system.

8. (original) The method of purchasing goods or services according to claim 6, wherein:

said wireless airtime units can be used in post-paid wireless communications system.

9. (currently amended) A method of providing e-commerce incentives, comprising:

~~create~~ creating credit in a wireless service account server in response to a user having actively interacted with a given web site of a seller of goods or services, said seller of goods or services securing wireless airtime units from a wireless service provider; and

~~providing attraction to said given web site by~~ transmitting from said wireless service account server an offer for ~~offering~~ said wireless airtime units credited to said user in response to said user having ~~actively interacted with~~ browsed a given web site of said seller of goods or services.

10. (original) The method of providing e-commerce incentives according to claim 9, wherein said action on said web site comprises:

selection of an electronic advertisement.

11. (original) The method of providing e-commerce incentives according to claim 9, wherein said action on said web site comprises:
returning to said web site.

12. (original) The method of providing e-commerce incentives according to claim 9, wherein said action on said web site comprises:
obtaining electronic services.

13. (original) The method of providing e-commerce incentives according to claim 9, further comprising:
monitoring said web site to determine if said user performs said action on said web site.

14. (previously presented) The method of providing e-commerce incentives according to claim 13, further comprising:
creating said wireless service account for said user in response to said user performing said action on said web site.

15. (original) The method of providing e-commerce incentives according to claim 14, further comprising:
crediting said wireless service account with said wireless airtime units.

16. (original) The method of providing e-commerce incentives according to claim 14, further comprising:
crediting said wireless service account when said user purchases wireless airtime units.

17. (original) The method of providing e-commerce incentives according to claim 15, further comprising:

reducing a count of wireless airtime units in said wireless service account when said user uses a wireless communications device based on said wireless service account.

18. (currently amended) A method of conducting e-commerce, comprising:

creating credit in a wireless service account server in response to a user having actively interacted with a given web site of a seller of goods or services, said seller of goods or services securing wireless airtime units from a wireless service provider;

~~providing attraction to said given web site by offering~~ transmitting from said wireless service account server an offer for said wireless airtime units credited to said user wireless service account based on ~~in exchange for~~ said user ~~actively interacting with~~ having browsed ~~[[a]] said given web site page of said~~ seller of goods or services; and

crediting from said wireless service provider ~~[[a]] said wireless service account server device account~~ associated with said user with a given number of said wireless airtime units based on said user having ~~actively interacting with~~ browsed ~~[[a]] said given web site page of said seller of goods or services.~~

19. (original) The method of conducting e-commerce according to claim 18, further comprising:

creating a wireless service account for said user in response to said user accessing said electronic information.

20. (original) The method of conducting e-commerce according to claim 18, wherein:

said wireless account is a metered wireless service account.

21. (currently amended) A method of paying for an offering, comprising:

creating credit in a wireless service account server in response to an entity having actively interacted with a given web site of a seller of goods or services, said seller of goods or services securing wireless airtime units from a wireless service provider;

~~providing attraction to said given web site by~~ crediting from said wireless service provider said wireless airtime units to [[a]] said wireless service account server based on ~~an interaction of~~ said entity having browsing with [[a]] said given web site of [[a]] said seller of goods or services;

maintaining in said wireless service account server a count of said wireless airtime units in said wireless service account associated with an entity; and

reducing said maintained count of wireless airtime units in said wireless service account server when said entity exchanges said wireless airtime units for a given good or service.

22. (original) The method of paying for an offering according to claim 21, further comprising:

selling a product through a web site wherein said product can be purchased in exchange for a predefined number of said wireless airtime units in a wireless service account associated with a purchaser of said product.

23. (original) The method of paying for an offering according to claim 21, further comprising:

accepting a predefined number of said wireless airtime units in exchange for said offering.

24. (original) The method of paying for an offering according to claim 21, wherein:

said wireless airtime units are earned by performing an action on a web site.

25. (original) The method of paying for an offering according to claim 21, wherein:

said wireless airtime units are earned by visiting a web site.

26. (original) The method of paying for an offering according to claim 21, wherein:

said wireless airtime units represent metered wireless services.

27. (original) The method of paying for an offering according to claim 21, further comprising:

crediting at least one wireless airtime unit to said wireless service account in response to behavior by said entity.

28. (original) The method of paying for an offering according to claim 21, further comprising:

crediting one or more wireless airtime units to said wireless service account in response to said entity visiting a web site.

29-37. (canceled)

38. (currently amended) An incentive offering system, comprising:
a wireless service account server maintained by a wireless service provider and associated with an entity, said wireless service account server maintaining a count of wireless airtime units; and

a processor in communication with both an e-tailer web site and said wireless service account server, said processor being configured ~~to create said wireless service account in response to said entity having actively interacted with said e-tailer web site and, to increase provide attraction to said e-tailer web site by increasing~~ said count of wireless airtime units when said entity has browsed ~~actively interacts with a given feature of~~ said e-tailer web site;

wherein said e-tailer secures said wireless airtime units from a service provider.

39. (original) The incentive offering system according to claim 38, wherein:

said e-tailer's web site is configured to monitor activity of said entity to determine if said entity has earned offered wireless airtime units; and

said e-tailer's web site is configured to communicate with said processor to update said wireless service account with said earned wireless airtime units.

40. (original) The incentive offering system according to claim 38, wherein:

said wireless service account is updateable with additionally purchased wireless airtime units from said e-tailer.

41. (original) The incentive offering system according to claim 38, wherein:

said wireless service account is updateable with additionally purchased wireless airtime units from said wireless service account.
